

MOHAMMED AL-DALI

FULL-STACK WEB DEVELOPER

Sana'a, Yemen +967 770 354 220 mohammed.addali@gmail.com [GitHub Profile](#) [LinkedIn Profile](#) [My Portfolio](#)

PROFESSIONAL SUMMARY

Detail-oriented and results-driven Full-Stack Web Developer with a strong foundation in modern web technologies, specializing in building dynamic, scalable, and responsive web applications. Proficient in crafting robust backend architectures using PHP and Laravel, combined with sleek, user-centric frontend interfaces using Tailwind CSS and JavaScript. Passionate about clean code, performance optimization, and delivering reliable software solutions that meet business needs.

CORE STRENGTHS

System Architecture & MVC: Designing scalable, clean, and maintainable backend structures.

Performance Optimization: Improving database queries, page load speeds, and seamless data flow.

Problem-Solving & Debugging: Analytical mindset with a strong focus on resolving runtime issues and edge cases.

Agile & Collaborative: Effective teamwork, attention to detail, and a continuous hunger for learning.

TECHNICAL SKILLS

Backend Development: PHP, Laravel (v10/v13), RESTful APIs, MVC Architecture, Authentication

Frontend Development: HTML5, CSS3, JavaScript (ES6+), Alpine.js, Bootstrap 5, Tailwind CSS (v4), Responsive Design

Databases & Management: MySQL, Relational Database Design, CRUD Operations, Query Optimization

Tools & Version Control: Git, GitHub, Browser Developer Tools, Postman, Composer

Methodologies & Practices: Clean Code, Problem-Solving, UI/UX Best Practices, Agile Workflow

PROFESSIONAL EXPERIENCE & NOTABLE PROJECTS

Full-Stack Web Developer

Digital Products E-commerce Platform

- Designed and developed a comprehensive full-stack e-commerce platform dedicated to selling digital products, gaming codes, and subscriptions using Laravel.
- Engineered a robust MySQL database schema with optimized relational queries to seamlessly link digital inventory with user orders, ensuring 100% secure and automated instant delivery upon payment confirmation.
- Built modern, fully responsive user interfaces utilizing Tailwind CSS, delivering an exceptional cross-device browsing experience.
- Integrated JavaScript and Alpine.js to introduce real-time interactive features, such as instant search filters and dynamic cart updates, reducing page reloads and enhancing user engagement.
- Developed a secure and efficient Admin Dashboard for real-time sales tracking, inventory management, and price updates.

Full-Stack Developer

Dynamic Restaurant Management System

- Built a dynamic restaurant web application featuring an interactive digital food menu and complete administrative control.
- Implemented full CRUD operations backed by PHP, MySQL, and Laravel, enabling seamless user and data management.
- Leveraged JavaScript and jQuery to elevate user engagement, optimize client-server data flow, and ensure smooth, interruption-free interactions.

Frontend Developer

Ancient Yemen Heritage Portal

- Developed a static yet highly engaging informational website showcasing the history and culture of ancient Yemen.
- Built with clean HTML5, CSS3, and JavaScript, featuring structured historical sections and a visually appealing, accessible design optimized for readability and optimal user experience.

ADDITIONAL EDUCATIONAL PROJECTS

- **Laravel Comment & User Management System (Laravel 10):** Engineered a foundational backend module focusing on secure user data handling, input sanitization, and comment management backed by MySQL.
- **Responsive Bootstrap Portfolios (Bootstrap 5):** Designed and deployed multiple responsive web layouts utilizing advanced Bootstrap 5 grids, HTML, CSS, and interactive JavaScript components.
- **Static UI/UX Layouts (HTML/CSS):** Created a series of diverse static web pages aimed at mastering flexible grids, layout alignment, and modern design principles.

EDUCATION & CERTIFICATIONS

- **Bachelor of Science in Information Technology & Information Systems** — Queen Arwa University (2021-2024)
- **Foundational Web Development Track** — Elzero Web School (2023-2025)
- **Participant / Contributor** — Google Developer Group (GDG) Sana'a (October 2024)
